- Monitor daily reports to make note of any client data changes that could affect the FATCA/CRS reporting
- Support in extracting data for the preparation of the regulatory returns to the IRS and HMRC tax authorities
- Support in reporting the FATCA/CRS data to the IRS and HMRC
- Support in reviewing and updating current processes and procedures
- Support in providing evidence for the bi-annual key control testing

There will also be opportunities to be involved in other projects/initiatives being undertaken by the Tax Operations team as this is a demanding role undertaken in a dynamic and rapidly changing regulatory environment. Involvement may include:

- Taking on some tasks towards other project deliverables
- Maintaining and managing backlogs (task lists)
- Other such ad-hoc tasks as required within Tax Operations
- Working with the Group Client Tax Services team in the Netherlands

In addition

- Working with the rest of the interns to put together "meet the manager" sessions amongst the managers, networking events and product sessions;
- Actively participate in volunteering opportunities available through ING's charity partnership initiatives;

- Think of ideas for charity events for the London office and take them on and making them happen!

Your Work Environment

ING UK businesses are subject to numerous operational tax regimes including US Withholding Tax and Reporting, FATCA, CRS, OECD MDR and transaction taxes in certain markets where they have transactional activity (i.e. UK, Ireland, France, Italy and Spain). These are diverse businesses and compliance with these regimes requires a robust governance framework supported by fully documented processes and procedures which must be regularly reviewed and updated. Key controls must be established and adherence to the key controls and processes is achieved by the Head of Tax Operations providing daily oversight across the function to maintain a robust control framework. The role is primarily an important support for the Tax Operations team as the annual regulatory reporting begins in November and completes in August which fits very well into the internship period as there will be significant on-the-job learning commencing in October and extending through to June 2023.

Career Potential

This role provides an excellent opportunity to gain an introduction to working within the Tax Operations function and will provide exposure to core business line operational processes covering Financial Markets, Lending and Daily Banking. The organisation is evolving its Way of Working principals which are based on the Agile methodology and has been adapted by ING to ensure continuous improvement and more timely delivery towards the client. The role gives opportunity to be involved in some of the key areas of the London Business but also to work collaboratively with colleagues in other locations with the potential to apply for permanent roles as available.
