Eagles: get your career off to a flying start

Eagles is a six-month, paid graduate development programme that connects hardworking, ambitious talent with top London firms. Now in its 20th year, Eagles finds talented, hardworking and motivated graduates and gives them the tools and opportunity to shine in a corporate environment.

A SOCIAL MOBILITY PROGRAMME WITH A DIFFERENCE!

- We recruit interns based on their potential rather than their past academic achievements. To be part of the programme, candidates must have recently graduated and meet specific social mobility criteria
- The programme starts with 2-3 weeks of training, including personal impact and presentation skills from the National Theatre, Excel and Outlook training from Happy Computers, Business English from Pitmans and Project Management at Hult Ashridge.
- The graduates then go on to join a business for a six to twelve-month placement. By now they'll have picked up a wide range of employability skills and have a good understanding of their role and where it fits into the business.
- ELBA continues to support them throughout their internship with mentors, additional training days and review meetings.
- Interns also benefit from the ever growing and inspiring Eagles alumni community.
- Our track record speaks for itself: 96% go on to find graduate-level jobs with an average salary of £31,025.

"My advice would be: don't be afraid to apply based on your current experience, skills or education. If it looks like something you think you would be good at please just give it a go and apply. Those nine months will genuinely change your life."

- Huma Ahmad, 2020 Eagle

"We want to ensure that the Eagles are not just the evidence of social mobility, but agents of it, becoming the leaders, employers, and mentors who drive social mobility in their own right in the future."

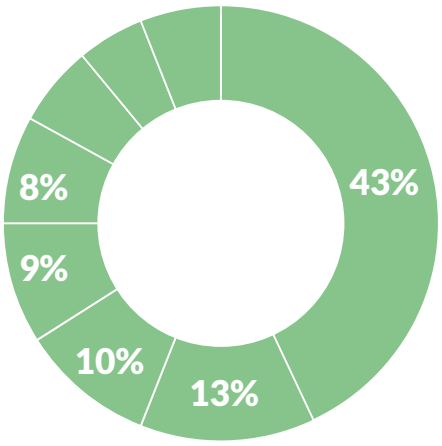

- Sally Roberts, former Eagles programme director
